LINEAGE
FOR ⊙ Plone

Control all your sites in one place.

Deploy a subsite in minutes

Don't waste time spinning up a whole new installation. Simply create a new folder and make it a subsite.

Style each subsite separately

Each subfolder can appear as an autonomous site or use an organization-wide theme.

Minimize your CMS investment

Lineage is less complex and easier to manage than a cluster of separate sites but gives users all the same benefits.
